* Source : Fund Admin. Cumulative returns are calculated on a yearly basis on a 360 days over one period < 1 year and 365 days basis of over one period > 1 year (expressed with the round-off superior). The above results pertain to full 12-month period per calendar year. All performances are calculated net income reinvested and net of all charges taken by the Sub-Fund. The value of investments may vary upwards or downwards according to market conditions.

Risk Indicator (Source : Fund Admin)

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for Superior to 1 month. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

WAM and WAL in days (Source: Amundi)

	WAL	WAM

Portfolio manager

Management commentary

Monetary policy:

The European Central Bank left its key interest rates unchanged in May. The deposit facility, refinancing, and marginal lending rates remained stable at 2.25%, 2.40%, and 2.65% respectively.

The level of the €str stood at around 2.17% during the month.

Economic growth in the eurozone was revised downward to 0.3% for the first quarter of 2025, affected by discussions on US tariffs.

ECB officials are considering further cuts in addition to the seven interest rate reductions already implemented since June 2024.

The next monetary policy meeting will be held on June 5, 2025.

Management policy:

- Liquidity:

Instant liquidity was mainly provided through overnight operations.

- Interest rate risk:

The weighted average maturity (WAM) of the portfolio stands at 3 days at the end of the period.

- Credit risk:

Short-term spreads remained stable at the end of the period, standing at 3-month to 1-year maturities at respective levels of €str + 14 to €str + 32 bps.

It should be noted that country allocations show puttable securities based on final maturities and not on the par redemption option attached to this type of product.

The weighting in bond securities at the end of the month is around 10% of the fund's assets.

The share of BBB-rated issuers represents about 16% of the portfolio at the end of the month.

- Average life and average rating:

The weighted average life (WAL) of this portfolio, which belongs to the monetary category, is 113 days.

The portfolio's average long-term rating remains at a solid A+ level.

The portfolio benefits from the 'Aa/S1' rating, which attests to the fund's high credit quality and very low volatility.

- Socially responsible dimension:

The portfolio has an average SRI score of C (1.065) at the end of the month, a level higher than that of its investment universe after excluding the bottom 25% of lowest-rated issuers C (0.920).

Important information

This document is provided for information purposes only and does not constitute a recommendation, a solicitation, an offer, advice or an invitation to purchase or sell any units or shares of the fund (FCP), collective employee fund (FCPE), SICAV, SICAV sub-fund or SICAV investing primarily in real estate (SPPICAV) (collectively, "the Funds") described herein and should in no case be interpreted as such. This document is not a contract or commitment of any form. Information contained in this document may be altered without notice. The management company accepts no liability whatsoever, whether direct or indirect, that may arise from the use of information contained in this document. The management company can in no way be held responsible for any decision or investment made on the basis of information contained in this document. The information contained in this document is disclosed to you on a confidential basis and shall not be copied, reproduced, modified, translated or distributed without the prior written approval of the management company, to any third person or entity in any country or jurisdiction which would subject the management company or any of the funds, to any registration requirements within these jurisdictions or where it might be considered as unlawful. Not all of the funds are systematically registered in all jurisdictions of all investors. Investment involves risk. The past performances shown in this document, and simulations based on these, do not guarantee future results, nor are they reliable indicators of future performance. The value of an investment in units or shares of the funds may fluctuate according to market conditions and cause the value of an investment to go up or down. As a result, fund investors may lose all or part of the capital originally invested. All potential investors in the funds are advised to ascertain whether such an investment is compatible with the laws to which they are subject and the tax implications of such an investment prior to investing, and to familiarise themselves with the legal documents in force for each fund. Concerning mandates, this document is a part of the periodic statement of the management activities of your portfolio and must be read in conjunction with any other periodic statement or notice of confirmation provided by your custodian and related to the transactions of your portfolio. Unless stated otherwise, the management company is the source of the data in this document. The date of the data in this document is that indicated at the top of the document, unless otherwise stated.

This document is designed exclusively for institutional, professional, qualified or sophisticated investors and distributors. It is not meant for the general public or private clients of any jurisdiction or those qualified as 'US Persons'. Approved investors in regard to the European Union are those which are defined as "Professional" investors in Directive 2004/39/EC of 21 April 2004 "MiFID" or, as the case may be, as defined under each local legislation and, insofar as the offer in Switzerland is concerned, "qualified investors" as set forth in the federal Law on Collective Investments (LPCC), the Ordinance on collective investments of 22 November 2006 (OPCC) and the FINMA 08/8 Circular regarding the legislation on collective investments of 20 November 2008. This document shall not, under any circumstance, be sent within the European Union to non "Professional" investors as defined by the MFI or under each local legislation, or in Switzerland to those investors which are not defined as "qualified investors" in the applicable law and regulations.

STANDARD MONEY MARKET ■

SRI Terminology

Socially Responsible Investment (SRI)

The SRI expresses sustainable development objectives in investment decisions by adding Environmental, Social and Governance (ESG) criteria in addition to the traditional financial criteria.

SRI thus aims to balance economic performance and social and environmental impact by financing companies and public entities which contribute to sustainable development whatever their business sector. By influencing the governance and behaviour of stakeholders, SRI promotes a responsible economy.

ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

"E" for Environment (energy and gas consumption levels, water and waste management, etc.).

"S" for Social/Society (respect for human rights, health and safety in the workplace, etc.).

"G" for Governance (independence of board of directors, respect for shareholders' rights, etc.).

ESG rating scale

¹ Outstanding securities in terms of ESG criteria excluding cash assets.

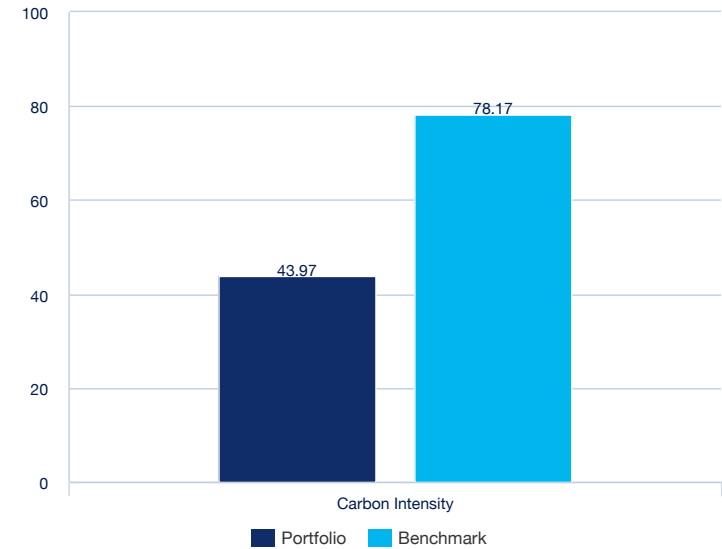

The decision of the investor to invest in the promoted fund should take into account all the characteristics or objectives of the fund.

STANDARD MONEY MARKET

Focus on Environmental, Social and Governance key performance indicators

In addition to the overall ESG assessment of the portfolio and the E, S and G dimensions, the manager uses impact indicators to assess the ESG quality of his portfolio. Four representative indicators of Environment, Social, Human Rights and Governance have been identified. The manager's minimum objective is to deliver a quality score higher than that of the index on at least two of the indicators.

STANDARD MONEY MARKET ■

Sources and definitions

Carbon Intensity: PAI 3 measures carbon emissions expressed in million euros (€ million) of revenue. The Greenhouse Gas intensity of the relevant portfolio is determined by calculating the portfolio weighted average of the total greenhouse gas emissions intensity per million euros of sales of the companies in the portfolio (t/EUR million sales).

Amundi relies on the data provider S&P-Trucost, whose methodology is based on the Greenhouse Gas Protocol:

Scope 1: Direct emissions generated by resources owned or controlled by the company.

Scope 2: Indirect emissions generated by the purchase or production of electricity, steam, or heat.

Scope 3: All other indirect emissions, both upstream and downstream of the value chain. For data robustness reasons, we have chosen to use emissions from upstream Scope 3 activities.

Board gender diversity: The % board gender diversity of the relevant portfolio is determined by calculating the portfolio weighted average of the percentage of board members who are female in investee companies, expressed as a percentage of all board members. The PAI indicator uses the "relevant" approach, meaning that the denominator is determined by considering the relevant portfolio. When the coverage of board gender diversity is less than 100%, the weights of the portfolio are adjusted to account for incomplete data coverage.

Independent board members: Board independence. average percentage of independent directors on the Board of Directors. Data provider: Refinitiv

Human rights policy: Board independence. average percentage of independent directors on the Board of Directors. Data provider: Refinitiv
