### Benchmark and corporate action information

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR).

#### Benchmarks: (If applicable)

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the benchmark. The investment manager will invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

### Important information

The fund has environmental and/or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088 on Sustainability-related Disclosures in the Financial Services Sector (the "SFDR").
